

Premium Search

Helps you find the right candidates, right away.

The CAREERNETWORK™

Premium Search from Beyond gives you complete access to candidate portfolios from across The Career Network. If the member has a resume posted – and most do – you'll see all of that information, as well as their contact information, Career Portfolio, photo and anything else they've provided to help you decide if they're a strong candidate.

It's time for a smarter search.

We use patented technology to provide an accurate and comprehensive candidate search. You can keep it simple or get as advanced and detailed as you'd like.

Here are just a handful of the search criteria available:

- Keywords
- Location
- Job Function
- Education Level
- Experience
- Salary Requirements
- And More

Add Premium Search to your recruitment plans.

There are options available for every need and budget:

- Choose one of our recruitment plans that fit your hiring needs, or let us create a custom package for you
- Pair it with display advertising or email campaigns for a more complete recruitment strategy
- Search in preview mode to check out partial portfolios from real candidates before you buy

For a full explanation of our candidate search features and functions, visit the Training Center on your Beyond home page.
